

## **Veterinary Surgeon at Race Meetings**

Any Club conducting a race meeting (including coursing) shall ensure that a Veterinary Surgeon who must be registered is in attendance from the commencement of kennelling and until all matters are finalized following the last race or course.

In the case of a coursing meeting where kennelling is not required the Veterinary Surgeon must be in attendance 15 minutes prior to the first course of the day.

If the Clubs Veterinary Surgeon is unavoidably detained, the meeting will not proceed without the permission of the Chairman of Stewards or in his absence his nominee.
